#### Revenues

Total revenues for first quarter ended March 31, 2018 were \$2.1 million compared to \$13.5 million for the comparable period in the prior year. This \$11.4 million decrease or approximately 84% is primarily associated with the decline in revenues earned by the Infrastructure Segment as a result of supplier credit issues and a \$2.0 million decrease in revenue resulting from the adoption of the new ASC 606 revenue recognition policy beginning in January 2018. For the first quarter ended March 31, 2018, Indoor Positioning Analytics revenue was \$848,000 compared to \$981,000 for the prior year period. While management has based any forward-looking statements included in this release on its current expectations, the information on which such expectations were based may change. These forward-looking statements rely on a number of assumptions concerning future events and are subject to a number of risks, uncertainties and other factors, many of which are outside of the control of Inpixon and its subsidiaries, which could cause actual results to materially differ from such statements. Such risks, uncertainties, and other factors include, but are not limited to, the fluctuation of global economic conditions, the performance of management and employees, the Company's ability to obtain financing, competition, general economic conditions and other factors that are detailed in the Company's periodic and current reports available for review at www.sec.gov. #### **Non-GAAP Financial Measures**

Management believes that certain financial measures not in accordance with generally accepted accounting principles in the United States ("GAAP"") are useful measures of operations. EBIDTA, Adjusted EBITDA and pro forma net loss per share are non-GAAP measures. Inpixon defines "EBITDA" as net income (loss) before interest, provision for (benefit from) income taxes, and depreciation and amortization. Management uses Adjusted EBITDA as the matrix in which it manages the business and Inpixon defines "Adjusted EBITDA" as EBITDA plus adjustments for other income or expense items, non-recurring items and non-cash stock-based compensation. Inpixon defines "pro forma net loss per share" as GAAP net loss per share adjusted for non-cash items including stock-based compensation, amortization of intangibles and one time charges including gain/loss on the settlement of obligations, extinguishment loss for debt modification, goodwill impairment, severance costs, change in the fair value of shares to be issued, acquisition costs and the costs associated with the public offering.

Management provides Adjusted EBITDA and pro forma net loss per share measures so that investors will have the same financial information that management uses, which may assist investors in assessing Inpixon's performance on a period-over-period basis. Adjusted EBITDA or pro forma net loss per share is not a measure of financial performance under GAAP, and should not be considered an alternative to net income (loss) or any other measure of performance under GAAP, or to cash flows from operating, investing or financing activities as an indicator of cash flows or as a measure of liquidity. Adjusted EBITDA and pro forma net loss per share have limitations as analytical tools and should not be considered either in isolation or as a substitute for analysis of Inpixon's results as reported under GAAP.
